

LARSEN STRINGS  $\frac{A}{S}$

...made with love and passion

## LARSEN MAGNACORE®

### CELLO G & C STRINGS

*Achieve the full potential of your cello!*

Our Larsen Magnacore® strings have an incredibly warm and focused sound. They offer a wealth of overtones, tremendous volume and exceptional string response – even when played in pianissimo. The playing-in time has been reduced to an absolute minimum, delivering outstanding string performance instantly

### STRING DETAILS

Magnacore® strings are made on a concentric multi-stranded steel core and wound with high grade Tungsten and precision rolled flat wire.

We produce Magnacore® in two tensions, medium and strong. The medium tension strings offer a wonderfully sonorous and broad sound with unique ease of playability. They are ideal for celli with a neutral to bright timbre.

Compared to the medium tension string, the strong Magnacores are even more voluminous and powerful. Also, they are slightly stiffer, making them distinctly more focused and direct in sound. We can recommend these strings for all celli – but in particular the darker and deeper sounding instruments.

MAGNACORE® CELLO STRINGS - TENSIONS			
String type	Soft	Medium	Strong
	kp / lbs	kp / lbs	kp / lbs
Cello A	not available in soft	18,3 / 40.4	18,8 / 41.5
